Processing Information

When requesting a Quarter Beef we use the method of providing a Split-Half Quarter so some of all the normal beef portions and cuts are provided. All meat is normally double wrapped, labeled, and fresh flash frozen for long term freezer storage. Special wrapping can be requested. Plastic bags known commonly as "chubs" may be used at times for ground meats. USDA Processing must be requested if Purchaser plans to re-sale the meat. **Prices do not include butcher's processing fees** which range from \$0.65 - \$0.85 per pound depending on services requested from the processor. These fees are charged on the hanging carcass weight after it is dressed out and made ready for chilling or aging. The processor normally charges fees in addition to the hanging carcass weight for smoking, curing, and packaging of specialty meats such as the heart, liver, tail, tongue, bones, and fat trimmings.
